

JUNE 5-9, 2022 • SANDESTIN GOLF & BEACH RESORT

Pediatric Cardiovascular Emergencies Workshop: June 8, 2022 1:00 - 4:00 p.m.

Lecture 1:

Neonatal and Pediatric Resuscitation Update

It is important for emergency healthcare professionals to be familiar with the latest resuscitation guidelines for neonates and children. This lecture will provide the latest evidence-based AHA guidelines.

Lecture 2:

Pediatric Shock

Review etiologies and clinical presentation of shock in pediatrics. Discuss emergency assessment and management of pediatric shock.

Lecture 3:

Sudden Cardiac Arrest in Young Athletes

This lecture will provide an overview of the epidemiology and clinical presentation of sudden cardiac arrest among young athletes.

Simulation Demonstration with Debrief

SVT recognition and management

Simulation Workshops:

Emergency physicians should be prepared for the evaluation and management of cardiovascular emergencies among neonates and pediatric patients. This station will provide participants the opportunity to practice neonatal and pediatric resuscitation of cardiovascular emergencies.

1. Approach to Cyanotic Neonate/Congenital Heart Disease
2. Prolonged QT->Torsades Simulation
3. SVT Simulation
4. Rhythm Station (Game format- Small group discussion) with Defibrillator

Ask the Experts – Panel Discussion

This optional session will provide a forum for participants to interact with pediatric emergency medicine faculty. Participants will have an opportunity to query the panel of experts, discuss challenging neonatal presentations, and get opinion on management issues.

Faculty

Shiva Kalidindi, MD, MPH, MS(Ed.), FAAP, FACEP
Nemours Children's Hospital, Orlando, Fla.

Carmen J. Martinez, MD, MSMEd, FACEP, FAAEM
University of South Alabama, Mobile, Ala.

Yiraima Medina Blasini, MD, FACEP
HCA Florida Kendall Hospital, Miami, Fla.

Amit Patel, MD, FACEP, FAAP
Nemours Children's Health, Orlando, Fla.

Christina M. Zeretzke-Bien, MD, FAAP, FAAEM, FACEP
University of Florida Health, Gainesville, Fla.
